Remarks:

1. AVOCET requested by case officer to write theoretical statement on wartime radio nets as per MGK-A-6615. AVOCET said that he would have it done by circa 19 May in collaboration with his radio expert who lives near Nürnberg. Asked that his radio man receive some remuneration for the work.

2. Offered to come down to Munich around 5 June 1949 for conversation with his expert on the evaluation of operational intelligence who lives near or in Munich. The purpose of these conversations will be to establish a working procedure for setting up a central MOB collection office for operational intelligence + (5) the advisability of recruiting AVOCET's man as office chief. Weekend of 15 June tentatively set. Suggest BCK and PNK be present.

Action to be taken by Operations Officer

BCK suggests date of palver be made sooner.

Agree to sooner date. Trust wording of (2) above does not mean you are intending to have AVOCET into all details. If possible, hold general assessment conversation w/ AVOCET present, but later definitive conversations w/ him (or with his "expert" even in an employer, remain under AVOCET's psychological control?).
